### NOTES

Unless otherwise indicated, all rates are pursuant to South Dakota Public Utilities Commission dockets:

A: Qwest and AT&T Arbitration in Docket No. TC96-184, effective March 4, 1999

- # Voluntary Rate Reduction, Docket TC01-165, effective 12/12/02. Reductions reflected in the 12/12/02 Exhibit A.
  - [1] Rates not addressed in the Cost Docket (estimated TELRIC)
  - [2] Market-based rates
  - [3] ICB, Individual Case Basis pricing.[4] Rates per FCC Guidelines.

  - [5] Rates addressed in Cost Docket filed on October 15, 2002.
    [6] The preliminary QPF costs are included in the space construction charges. These engineering and planning charges are also included in the caged and cageless quote preparation fees. Upon completion of the collocation construction, the quote preparation fee (QPF) will be credited to the final space construction charge for the collocation job. The credit will apply to whichever QPF is applied. This exhibit currently lists multiple QPFs based on what has been proposed in the cost docket and what was approved in the AT&T interconnection agreement. CLEC may choose either QPF at this time.
  - [7] Effective 8/1/03, Qwest will no longer charge the Recurring and Nonrecurring Charges for Channel Regeneration. Qwest reserves the right to revert back to the contractual rate only after appropriated notice is given.
  - [8] Effective 11/04, Qwest will no longer perform Bridge Tap and/or Load Coil Removal (Conditioning) to facilitate provisioning of its Qwest Retail DSL offering. In order to permit CLECs to provision their own xDSL Capable Loops, Qwest in now re-instituting the charge to continue Conditioning for the 2/4-Wire Unbundled Loop, ADSL Compatible Unbundled Loop, ISDN (BRI) Capable Unbundled Loop, xDSL-I Capable Unbundled Loop, Non-Commercial Shared Distribution Loop and Loop Splitting, effective 3/14/05.
  - [9] All technically feasible Vertical Switch Features are available with compatible unbundled switch ports. No monthly recurring charge applies for Basic Vertical Switch Features. Only Basic Vertical Features with non-recurring charges are listed. Non-recurring charges are applicable whenever a feature is added -whether on new installation, conversion, or change order activity. Vertical Features not listed are included in the switch port and have a rate of zero for both recurring and nonrecurring charges.
  - [10] A special request is a request by the customer to perform something that is technically feasible but the process and pricing are not yet in place. [11] Qwest will not charge for this element until the Commission has an opportunity to review and approve a rate in a cost proceeding.
